“We should all strive to improve on the status quo; none of us should ever be satisfied with what has been achieved, but should always endeavor to do better”

Robert Bosch

Image for representation purpose only.

What drives us.

Our mission is to enhance lives by creating tools for a quiet, healthy and stylish home: appliances that are reliable, efficient and a joy to use – for more peace of mind in everyday life.

Design that delights

"We define our own rules at Bosch. Because our design is very functional and pure, there is little room for formal gadgetry," explains Bosch Home Appliances' principal designer Robert Sachon. At the heart of German engineering lies aesthetic design. As Europe's No. 1 brand in major domestic appliances, we strive for design excellence in every product of ours. We not only make quality visible and tangible, we perfect every detail.

Innovative by nature

Our aspiration to get better is what keeps us going, which is why we are always on the quest to producing smart appliances that make everyday life easier. Our home appliances surpass all expectations with uncompromising quality, technical perfection, absolute reliability and top performance.

Commitment to Quality

Bosch appliances are crafted to do the job extraordinarily well, because without quality, innovation is just for show. We use top-quality materials to produce components that are collectively built to last. At Bosch, quality is the minimum standard we follow

A partner that makes your life convenient

Our home appliances are packed with great ideas, features and technology to make your life at home easier than ever and convenient too.

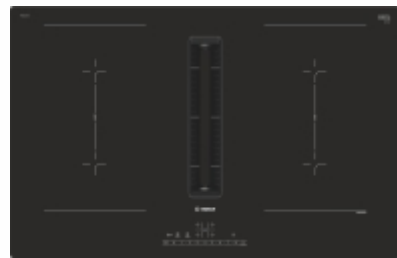

Always Sustainable

Our appliances are manufactured with care for natural resources. Around 40% of our patent applications relate to environmental protection. Today, our home appliances are amongst the most efficient and economical in the world, along with being good for the environment.

GAS COOKTOPS

The power of fire. The precision of Bosch.

Traditionally, gas cooktops offer inexact power settings. There are no clearly defined increments, particularly at intermediate levels of heat such as medium-low, or medium-high. But gas cooktops from Bosch with FlameSelect technology offer a completely new level of precision.
